A Club of Excellence is expected to:

- Maintain and strongly support the La Relève (LR), National Team (NT) and the High Performance (HP) programs
- Provide adequate training facilities for its current and potential LR/NT/HP athletes
- Provide ongoing education opportunities for its LR/NT/HP coaches
- Serve as a host for LR/HP/NT training camps, preparation camps, trials and selection activities
- Upon agreement, share pertinent and current LR/HP/NT information with potential LR/NT/HP clubs in its vicinity/region; allow these clubs access to its facility to observe training or train

The concept of Clubs of Excellence will:

- focus the efforts of the WP when recognizing and in assisting the coaches and clubs in the development of the most talented athletes;
- contribute to the development of additional clubs interested in working with a Club of Excellence;
- enable the club to use this designation to promote the club and its programs, athletes, and coaches with municipal, regional, and/or provincial authorities, sponsors, general public, and media;
- enable prospective talented athletes and parents to choose clubs with an established high performance and national team program.

The criteria for granting Club of Excellence status include the production of carded, national team, and high performance athletes, participation to National and International competitions, coaches with NCCP Level 4 certification, club support of GCG Women's programs and an assessment by the National Coach.
